

MANUFACTURING OPERATOR

COMPANY DESCRIPTION

4iiii Innovations Inc. is a Canadian sports technology company based in Cochrane, Alberta. 4iiii Innovations is a diverse collaborative team dedicated to improving personal performance through the development of superior training tools, including cycling power meters and heart rate monitors for the outdoor and indoor cycling and fitness markets. The company strives to produce the best quality and performing equipment in the industry at the best price point for our OEM partners and direct customers so that every athlete can gain the benefits of better training.

We're seeking 2 temporary full-time Manufacturing Operators to join our team in Cochrane, Alberta. This position is for **approximately 3-6 months, with the possibility of an extension.**

4iiii Innovations offers employment in a fun, fast-paced and exciting industry. 4iiii employees have access to industry discounts from leading brands, race entry discounts, and of course 4iiii products. If this sounds like something that interests you, read on!

DEPARTMENT SUMMARY

- Provide customers with the best possible quality product and turnaround time
- Produce power meters to meet the demands of our customers (quality and quantity)
- Build and package subassemblies to support offsite production facilities
- Repair defective products, determine and record root causes to improve our products and processes

ROLE SUMMARY

The Manufacturing Operator is primarily responsible for assembling and installing high quality power meters, including gluing housings, applying drive side gauges and building subassemblies. This role also tests and calibrates the power meters. This position helps with RMA analysis when required. Ensuring units are fully functional and assembled correctly, and packaged properly before sending them to Shipping & Receiving is an important part of this role. Finally, a Manufacturing Operator ensures that all facets of quality are maintained throughout the assembly process by identifying potential issues and reporting them to the supervisor.

QUALIFICATIONS AND SKILLS

- High school diploma
- Able to follow instructions, keep track of processes and remaining focussed on the task at hand
- Place a priority on upholding quality standards
- Ability to be organized and keep workspace tidy
- Proven manual dexterity and good hand-eye coordination
- Effectively communicate with supervisor and coworkers
- Detail-oriented and meticulous
- Familiar with light hand tools and power tools
- Ability to work with a team
- Able to work in a fast-paced environment
